

## DECLARATION OF CONFORMITY

### REACH

Regulation ECHA of 17 January 2022

(Registration, Evaluation, Authorization of Chemicals)

Pulse Magnetic & Power Electronics Pvt Ltd being a manufacturer of products in the meaning of REACH is a "downstream user". As a downstream user, Pulse Magnetic & Power Electronics Pvt Ltd, as a matter of principle, does not need to register according to REACH.

Products by definition of REACH, which you purchase from us, do not need to be registered. Chemical substances contained in our products, which may possibly be subject to registration, have to be registered exclusively by our suppliers.

In our own interest and to ensure a high level of safety in our products, we closely observe the implementation of REACH and the requirements resulting therefrom. Especially we have contacted our suppliers, from whom we purchase raw materials, consumables and preparations, which we use in the course of our production process. Our processes are mainly standard applications, which are being applied in many industries in large quantities.

Against this background many of our suppliers have already indicated, that pre registration respectively later regular registration of the relevant substances will be completed by them.

In reference to above mentioned regulation, we confirm that products supplied by us do not contain any hazardous substances (SVHC) in concentration of more than 0.1 percent of mass according to the listing of ECHA of 17 January 2022.

In case of further questions regarding "REACH", we are always at your disposal. Please do not hesitate to contact me.

Yours sincerely

T P Baranwal
